How Society Woman Wards Off Wrinkles

but when I acquire such disfigure-ments I know how to lose them in a hurry." A well-known society matron confided this to me. I had wendered how she, with her strendous social duties and late hours, could so com-pletely ward off the usual marks of

care and dissipstion.

"I don't wear wrinkles in public, nor those horrist rings beneath the eyes," she continued, "since I've learned what plain, ordinary saxolite will do, When any of those hateful marks appear, I send to the drug store for an ounce of powdered saxolite and a half pint of witch hazel. I mix the two, bathe my face in the solution and—that's the whole secret. I've never tried anything that works so miraculously. My chin is inclined to double, this trouble, too, I keep in cheek in the same way. —Emily Dean in Town Talk,

ONE BALLOON IS STILL UNREPORTED

Darrow Announces He Will Race for Bennett Trophy Lies Between Germany and America.

Los Angeles, Calif., Oct. 7.—An in-formal motion for a change of trial nuize, presented today by the attorneys air, the race for the James Gorden Benins associates then amounced that they would file affidavits, alleging that judge Bordwell is biased.

The formal application for a change of jurists was filed in judge Bordwell's court today after notice had been served to the greatest distance, 365 miles. The court today after notice had been served to the greatest distance, 365 miles. The court today after notice had been served to the greatest distance, 365 miles. We Sell Them Wholesale and Retail

Our contention for years has been that we produced and sold better milk than the other dairies, and we have urged that tests be made regularly. This is from the Bulletin issued by the Department of Health for July:

"SEE THAT YOUR MILK IS STAND-"Commencing with this issue of the comparison of our analysis and the from other places we believe that the people of El Paso are faring a little better in milk than most places and we shall see that they continue to do so. The bacterial count gives you very good idea of cleanliness in handling the milk, as anything over 150 000 above anything over the control of the c 50,000 shows carelessness somewhere

in this respect."

The analysis of our milk for July was total solids, 12.74; butter fat, 8-4; bacterial count, 50,000. From the Report of Department of Health for August, 1911;

Health for August, 1911;

"The report of the city chemist and bacteriologist on the milk examinations for this mouth show that a number of dairymen are furnishing a very poor grade of milk to the public. In each case they have been notified of the conditions and warned that prosecutions will follow unless their milk comes on to standard. In this dairymen because of our strict regu-lating of the dairies but the man who is selling good milk will not complain. The other fellows complaint will do no good and if he is watering or sepa-rating his milk or handling it in an unclean manner the abover the public knows it and he is put out of business

the better."

The analysis of our milk for August was: Total solids, 12.18; butter fat, 3.4; bacterial count 35,000.

LITTLE HOUSE IN PLAZA IS CAUSE OF MUCH CONJECTURE of the band stand. This little house has caused much guessing as to its purpose. It was erected by the ongineers of the coast and gradetic survey for the purpose of locating a menument in Cleveland square which can be used as bench mark for making surveys in this section.

The house was erected to protect the instruments of the engineers and has a slot through which observation of the stars is made. It will be removed as soon as the menument is located.
